# TEAM TOC (THE ORGANIZING CONNECTION)

**Our name says it all: we are the binding factor in any event's organization. From permits and licences to logistics and from sales to operation: we oversee it and make sure that everything fits seamlessly. That is the true secret of a successful event: the fact that we leave nothing to chance, because an event is much too valuable for that.**

Team TOC was founded in 1998. In the past twenty years we gained a considerable amount of knowledge about organizing (large) sports events. Team TOC is known for its friendliness and hospitality. Its partners regard Team TOC as a loyal and enthusiastic partner to work with.

We will give you an impression of the many sports events that Team TOC has already organized. In addition to the UCI Cyclo-cross World Championships in 2006, 2009 and 2014, we were also involved in the 2013 UCI Cyclo-cross World Championships in Louisville (USA) and several Cyclo-cross World Cups in Hoogerheide (the Netherlands). We were also involved in the UCI Road World Championships in Limburg (the Netherlands), Florence (Italy) and Ponferrada (Spain). In 2016, we organized the UCI BMX Supercross World Cup for the sixth time in a row at Olympic training centre Papendal (Arnhem, the Netherlands) and the AFAS Tennis Classics (Apeldoorn, the Netherlands) for the fifteenth time. We are also creative and together with Red Bull Netherlands we launched a new cycling concept in 2015, which was a huge success and run till 2018. Team TOC is already a familiar face in the cycling world.

In addition to the various big events, we ventured into the Para world in 2015 and organized the UCI Para-Cycling Track World Championships. Furthermore we will organize the UCI Para-Cycling Track World Championships again in 2019, the UCI Para-Cycling Road World Championships and the World Archery (Para) World Championships as well in 2019. True athletes showed us a lot of passion for their sport, which made us even more passionate about creating a perfectly organized event with specific needs.

After several World Championships in cycling we came in contact with Ultimate frisbee. Once we saw this sport, we decided to set our sights on showing it to the rest of the world by organizing World Championships in the Netherlands. It is our ambition to organise perfect World Championships.

Organizing the 2020 WFDF World Ultimate & Guts Championships will give us the opportunity to promote and develop Ultimate frisbee in the Netherlands and show this attractive sport to the entire world. Our sport is organizing events and taking care of everything behind the scenes the best way possible with our winning team. Using our experience and network. With the efforts of volunteers, the city and the National Federation, otherwise it will be impossible to organize World Championships.

*Let's join forces and organize the best WFDF World Ultimate & Guts Championships ever together!*

# TRANSPORT

For all teams that book their hotel accommodation package through the TOC, transport is included from the accommodation to and from the venue/s on event days.

Please note: there is **NO** transportation available for those teams who arrange their own accommodation.

As a team you can choose between two different types of transport offered by TOC:

## BY BIKE

Travel the Dutch way by bike. Did you know that there are more bicycles in the Netherlands than people? The easiest transport option in the Netherlands is by bicycle. If you choose this option a free bike will be available during the competition days for you. So you can cycle between the venues, accommodation and social functions without depending on transport timetables.

## BY BUS

There will be a free shuttle service available from different points nearby the sleeping accommodations to the venue and back. There will be a shuttle service available in the morning and after the matches. Time table to be confirmed on site.

Please choose your transportation option on the sleeping accommodation booking form.

Your transportation choice will be marked on your accreditation with a bike or bus sign. Only one option for each team can be chosen, it's not possible to choose for both transportation options or to switch on site.

Bus timetable to be confirmed once the schedule format is set, to ensure transport service.

## BY TRAIN

From Amsterdam Airport, the train is easy and convenient with a travel time of approx. 110 minutes direct from the airport to Leeuwarden at a cost of approx. € 27,- per person one way.
