

## **WFDF ANNUAL STATISTICAL ANTI-DOPING REPORT 2022 as per WADC 14.4**

The World Flying Disc Federation (WFDF) has concluded the operations of the WFDF Test Distribution Plan (TDP) and Anti-Doping Programme 2022.

The data included in this document serve as annual statistical Anti-Doping report as per Art. 14.4 of the World Anti-Doping Code (WADC).

### **WFDF Test Distribution Plan (TDP) – RESULTS**

WFDF in the year 2022 conducted 3 Out-of-Competition Tests (OOCT) and 4 In-Competition Tests (ICT).

A further 4 In-Competition Tests were conducted on WFDF Flying Disc athletes during the The World Games 2022 competition.

Total number of tests conducted in the sport of Flying Disc was 3 OOCT and 8 ICT.

(Numbers will be updated according to WADA total figures for 2022 in the WADA Annual Statistics report as soon as possible).

All tests showed negative results and provided no AAFs with a full co-operation of all athletes tested and so WFDF is happy to report that no doping case in 2022 had to be reported.

WFDF had no whereabouts filing failures to report.
